

# INCLEMENT WEATHER POLICY FOR NOVAPSY

Our office uses the *Federal Government* closure decisions to determine whether the office will close early, open late, or not open at all. There are times when the Government will remain open but our office will decide to close early, open late or not open at all.

The main number will inform you of the status of the front office staff. After calling the main number please call your individual provider's voicemail to find out their status because there are times when your provider will be in the office on time and the front office staff is out or late.

The safety of our patients and our staff will also be our primary concern.
